WATER ISAC

2022
YEAR-IN-REVIEW

It is a wrap on WaterISAC's 20th year! Take a look back on this landmark anniversary with us.
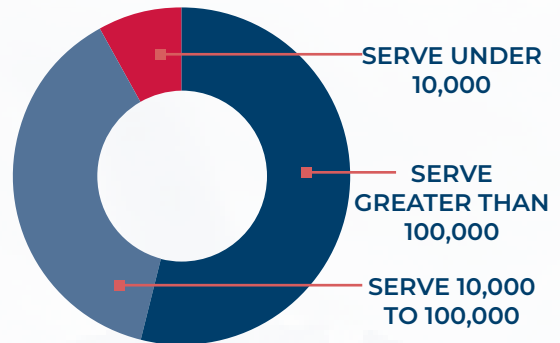

MEMBERSHIP

Over **530 member** organizations, utilities, and sector stakeholders with **3,500+** active users.

WaterISAC utility members serve more than **223 MILLION Americans** and consumers in **CAN, AUS,** and **NZ.**

BREAKDOWN OF UTILITY MEMBERS
Population Served

- SERVE UNDER 10,000
- SERVE GREATER THAN 100,000
- SERVE 10,000 TO 100,000

EDUCATION

Over **12,000 items** available 24/7 in our online Resource Center Library.

1,870 attendees at our monthly Cyber Threat Web Briefings.

Represented and spoke at **29 engagements** throughout the year.

OUTREACH

Distributed **171 mailings** and advisories throughout the year, including 100+ Security & Resilience Updates.

Racked up close to **200,000 impressions and views** across social media channels and website ads.

Make sure to follow us @waterisac!

CELEBRATED

20 **YEARS** | WATER ISAC

2022 marked a milestone for WaterISAC – our 20th year! In 2002 WaterISAC was established by the U.S. water and wastewater sector in coordination with the U.S. Environmental Protection Agency and the Federal Bureau of Investigation. Together, over the years, we have helped thousands of utilities by disseminating the information they need to stay secure and protect those they serve. Thank you for being part of the WaterISAC journey, we are looking forward to the next 20 years.

We held our first-ever event virtually over three afternoons in November 2022 and we are excited to report that we had...

H₂OSecCon
VIRTUAL 2022
Powered by WATER ISAC

- **Over 450** registered attendees and speakers.
- **11 workshops and sessions** specially curated for the water and wastewater sector.
- **Tabletop exercises** designed to address cybersecurity and physical security issues facing utilities.

- **34 subject matter experts** from water and wastewater utilities, government, and private sector organizations.
- **17 industry partner** supporters and sponsors.
- **VIP Mainstage Speakers** kick-off each afternoon.

Here are just a few exciting accomplishments from 2022 for the sector and our members.

Launched a new resource for the sector - **Water Sector Cybersecurity Case Studies**. This new resource is made up of anonymous experiences that can assist all water and wastewater utilities learn from others' difficult situations and improve their cybersecurity.

Produced **Quarterly Water Sector Incident Summaries** that included 149 shared incidents of water and wastewater cyber attacks and physical incidents. These quarterly reports provide information and awareness of the ongoing threat environment for our members.

Conducted a cybersecurity survey for US Water and Wastewater Utilities to **expand our portfolio of resources** and support our members.

Instituted **WaterISAC's Champion program** for leaders in the sector to provide ongoing benefits and knowledge to members.

Advised **federal agencies on key threat alerts** and maintained information-sharing relationships with federal and state partners:
- Cybersecurity and Infrastructure Security Agency (CISA)
- DHS Intelligence & Analysis (DHS I&A)
- Environmental Protection Agency (EPA)
- Federal Bureau of Investigation (FBI)
- Law enforcement/intelligence fusion centers
- State homeland security and emergency management agencies

Coordinated on critical issues and security challenges with dependent and interdependent critical infrastructure sectors through **involvement in the National Council of ISACs and partnerships with other ISACs**.

WaterISAC is your gateway to cyber and physical threat information and best practices for the water and wastewater sector.
